Child Cancer Foundation

Patron: Lady Blundell

The Child Cancer Foundation is a charitable organisation providing a range of support services for children with cancer and their families.

The Foundation has four divisions based in Auckland, Wellington, Christchurch and Dunedin, which support 22 branches throughout the country.

While around 70% of children diagnosed are successfully treated, childhood cancer is still the second most common cause of death in children apart from accidents. Cancer can affect children from any family, at any age and at any time.

Because childhood cancers are different from those found in adults, and because the family is often still in the stage of establishing itself as a unit when a child is diagnosed, there are special needs, circumstances and pressures that the Foundation recognises and aims to alleviate.

The Child Cancer Foundation provides:

- Introductory kits at diagnosis with practical items and information.
- Help with transport and accommodation close to a treatment centre, to enable families to stay together.
- On-going practical and financial assistance while families cope with often prolonged treatment.

The Foundation also helps fund national research programmes and helps subsidise specialist education for health professionals.

The Foundation does not receive any Government funding, or funding from other cancer support agencies and recognises public support as crucial in helping with the fight against this serious disease.

The Professionals Real Estate Group, business partners to the Child Cancer Foundation, have donated holiday homes to provide a much-needed break for children and their families recovering from the physical and mental rigours of prolonged treatment.

The Foundation now has holiday homes in both the North and South Island known as Sunshine Lodges, and two resource/drop in centres located in Auckland and Wellington known as the Family Place. Donations assist in the development and maintenance of these properties.
