The band has a talented male singer/guitarist who has auditioned for Australian Idol, getting before the judges on multiple occasions. Our young beautiful female lead singer has extensive experience in the industry and her amazing vocal talents coupled with her stage presence make her the centre piece of the band. The electric guitar, bass and drums provide the solid backdrop which makes Undercover one of the high calibre acts in the City .

The band chooses a carefully crafted mix of old and modern classics which is constantly up-dated to suit the particular venue. This is one band to keep an eye on in the next year, and we truly believe we are one of the best evolving live show acts around.
