

HRA Launch Fantasy Mating Search Function

Harness Racing Australia has today launched a Fantasy Mating Search which is part of the HRA On-Line section of harness.org.au

The Fantasy Mating addition to the website aims to assist owners and breeders by automating a five generation pedigree for the progeny of a fictional mare and stallion mating.

The fantasy pedigree is fully dynamic, in that any horse within the pedigree is also able to be selected to view its full performance record.

The fantasy pedigrees are not limited to current registered stallions – all male horses in the database can be matched against any female horse.

The Fantasy Mating search is a free service and can be accessed via the HRA On-Line Australian Standardbred Horse Search page

(www.harness.org.au/ausbreed/reports/index.cfm?action=main.search). To start, simply click the Fantasy Mating banner on the right side hand of the screen:
