INTRODUCTION

Harness Racing Australia has adopted a 'Ratings Based Handicapping System' as the basis for handicapping in Australia with effect from 1 July 2019.

The Rating Based Handicapping System (RBHS) supersedes the redundant multi-tiered 'Class System'.

The inherent principles of the RBHS are that it is fair, consistent, transparent and provides for the highest level of integrity at all times. It is also user-friendly and offers enhanced prizemoney opportunities for all horses irrespective of ability whilst simultaneously yielding an appealing racing product.

Under the RBHS, a horse will receive an automatic numeric rating based on its finishing position after every racing performance. Therefore, an owner, trainer or any other interested person will be able to readily update a horse's rating using a simple matrix that details the ratings points applicable to each finishing position within a range of stakemoney thresholds.

The rating of all horses will be published on the internet site 'HarnessWeb' and where possible in print and electronic media displaying racefields and form guides.

1. DATE OF EFFECT

- 1.1 All horses competing at Harness Racing meetings on or after 1 July 2019 shall be handicapped in accordance with these Rules.

 - (b) inclusive of any applicable reductions as provided in Rules 11 and 12 hereof.

- 12.6 When a Concession Driver wins the final permissible concession claim race at a meeting where the driver has further driving engagements, the driver will be permitted to claim the relevant concession for the remainder of such meeting and any other meeting on the same day.
- 12.7 When a Concession Driver claiming a concession is unable to fulfil a race engagement the Concession Driver shall be replaced by another Concession Driver who is eligible to claim a concession of equal or greater Rating points unless otherwise specified by the respective Controlling Body.
